tips to speed claims processing

Part 1 – Employee

Missing or incomplete information will slow down claims processing. To avoid this, please be sure to include:

#2 Patient birthdate

Helps identify an insured and determine dependent eligibility.

#6 Employee's identification number

This is the most important identifier for the plan member.

#8 Student status

Because this information often changes, it is required on every claim for dependents age 19 years and older.

Part 2

To help expedite the claims process, please be sure to include:

#15 National Provider Identifier

There are two types of NPI. Type 1 is for individual providers who operate independently. Type 2 is for health care providers such as group practices or corporations. Type 2 organization providers may want their individual provider employees to have Type 1 NPIs to distinguish them individually.

#19 Hearing Aid - Initial Replacement?

Required for hearing aids. If not initial replacement, prior placement date is needed.

#20 Statement of actual services or Pretreatment estimate

Appropriate box should be marked to ensure correct handling.

#21 Supporting Documentation

Narratives may be submitted. Documents should be dated and legible. Please indicate both, left or right. All supporting documentation should be current within one year. Procedure codes listed are based on CPT and/or HCPCS.

Pretreatment Estimate of Benefits

We recommend a pretreatment estimate of benefits when a plan member considers the services to be expensive. A pretreatment estimate lets both the member and hearing care provider know in advance how much insurance will pay. If hearing care coverage terminates for any reason during treatment, only procedures performed before coverage ended will be eligible for payment.

For full information regarding coverage, plan members may refer to their insurance plan booklet.
