## INSURANCE

Even a small trip to the hospital can have a major impact on your finances.

Here's a way to help make your visit a little more affordable.

# AFLAC GROUP HOSPITAL INDEMNITY

Policy Series C80000

## The plan that can help with expenses and protect your savings.

Does your major medical insurance cover all of your bills?

Even a minor trip to the hospital can present you with unexpected expenses and medical bills. And even with major medical insurance, your plan may only pay a portion of your entire stay.

### That's how the Aflac Group Hospital Indemnity plan can help.

It provides financial assistance to enhance your current coverage. So you may be able to avoid dipping into savings or having to borrow to address out-of-pocket-expenses major medical insurance was never intended to cover. Like transportation and meals for family members, help with child care, or time away from work, for instance.

### The Aflac Group Hospital Indemnity plan benefits include the following:

- Hospital Confinement Benefit
- Hospital Admission Benefit and more

### How it works

Amount payable was generated based on benefit amounts for: Hospital Admission (\$1,500) and Hospital Confinement (\$150 per day).

The plan has limitations and exclusions that may affect benefits payable. This brochure is for illustrative purposes only. Refer to your certificate for complete details, definitions, limitations, and exclusions.

## Benefits Overview

LOW

**HOSPITAL ADMISSION BENEFIT per confinement** (once per covered sickness or accident per calendar year for each insured)

Payable when an insured is admitted to a hospital and confined as an in-patient because of a covered accidental injury or covered sickness. We will not pay benefits for confinement to an observation unit, or for emergency room treatment or outpatient treatment.

We will not pay benefits for admission of a newborn child following his birth; however, we will pay for a newborn's admission to a Hospital Intensive Care Unit if, following birth, he is confined as an inpatient as a result of a covered accidental injury or covered sickness (including congenital defects, birth abnormalities, and/or premature birth).

\$1,500

**HOSPITAL CONFINEMENT per day** (maximum of 180 days per confinement for each covered sickness or accident for each insured)

Payable for each day that an insured is confined to a hospital as an in-patient as the result of a covered accidental injury or covered sickness. If we pay benefits for confinement and the insured becomes confined again within six months because of the same or related condition, we will treat this confinement as the same period of confinement. This benefit is payable for only one hospital confinement at a time even if caused by more than one covered accidental injury, more than one covered sickness, or a covered accidental injury and a covered sickness.

\$150

\$100

### HEALTH SCREENING BENEFIT

The Health Screening Benefit is payable once per calendar year for health screening tests performed as the result of preventive care, including tests and diagnostic procedures ordered in connection with routine examinations. This benefit is payable for each insured.

### WAIVER OF PREMIUM

If the employee becomes totally disabled due to a covered sickness or accidental injury, after 90 days of total disability, we will waive premiums for the insured and any covered dependents. As long as the insured remains totally disabled, premium will be waived up to 24 months, subject to the terms of the policy.

### SUCCESSOR INSURED BENEFIT

If spouse coverage is in force at the time of the employee's death, the surviving spouse may elect to continue coverage. Coverage would continue according to the existing plan and would also include any dependent child coverage in force at the time.

### SURGICAL BENEFITS

#### SURGICAL BENEFIT per procedure

If an insured has surgery performed by a physician due to an injury or because of a covered sickness, we will pay the appropriate surgical benefit amount shown in the Schedule of Operations. The surgical benefit paid will never exceed the maximum surgical benefit designated in the plan. The surgery can be performed in a hospital (on an inpatient or outpatient basis), in an ambulatory surgical center, or in a physician's office.

If an operation is not listed in the Schedule of Operations, we will pay an amount comparable to that which would be payable for the operation listed in the Schedule of Operations (the operation that is nearest in severity and complexity).

If two or more surgical procedures are performed at the same time through the same or different incisions, only one benefit—the largest—will be provided.
